

William  
Russell

Your well-being,  
your peace of mind

**International health insurance**

# Choosing the expat life takes imagination. Securing the lifestyle takes a plan.

One that means you'll never have to let the unexpected stop you from following your dream. You know that the expat journey follows the road less taken. But it's a path you need not take alone.

William Russell is your partner for international insurance. We started out in 1992 as a family-run business, and we now support customers like you in more than 160 countries worldwide. We offer a range of plans that you can take with you as you move, renewing easily each year. The secret to our continued success is that international insurance is the only thing we do. We are a boutique insurance provider, fully independent, and free from the demands of shareholders or investors. Our only obligation is to you.

We know your challenges, understand your needs, and share your vision. Our customers trust us to deliver straightforward and affordable plans, covering their health, life, and income, wherever they are. They count on us to step into action when the unexpected happens.

Find out how our plans can secure your plans at [william-russell.com](http://william-russell.com).

## You're covered, wherever life takes you.

To get the most out of living abroad, of course you know the importance of adapting. But you should never have to accept low quality or poor service when it comes to your healthcare. Talk to us about our range of health plans, which are designed to suit a range of budgets and lifestyles.

Our plans allow you to take your cover with you when you move to another country or take a temporary trip home, provided you're within your chosen area of cover. Should you need emergency medical treatment, we will evacuate you to the nearest suitable medical facility if none is available locally.

## Stay in control.

As an expat, you've seized the opportunity to broaden the choices for you and your family. You can improve your well-being through the diet you choose, the fitness plan you follow, and the activities you pursue.

When short or long-term illness enters the picture, it's the loss of independence that can affect us most. With our health plans, you stay in control. You're free to receive treatment at any hospital, clinic or medical facility within your plan's area of cover.

This means access to the best doctors and healthcare professionals, and the freedom to choose the hospital you want to use. If you want to return home for your medical treatment, our plans allow you to do just that, provided your home country is within your area of cover.

We also give you the option of selecting regional cover to help manage your premiums. Healthcare costs are significantly higher in the USA, so we have made cover there optional, meaning that you don't have to pay for cover you don't need.

# We're not afraid to talk about cancer treatment.

## With us, you're covered in full.

1 in 2 people in the UK born after 1960 will be diagnosed with some form of cancer during their lifetime.\* With our health plans, you're covered in full for cancer treatment. Selected plans offer a US\$5,000 cash benefit upon diagnosis of cancer too.

The Elite health plans cover the cost of genome testing of cancerous cells up to US\$6,000, giving you a cancer care plan personalised for you. The plans cover all aspects of your treatment, including benefits toward the costs of wigs, counselling, and specialist cancer dietitians.

We all face the risk of developing cancer at some point in our lives, whoever or wherever we are. Our plans will help you stand up to one of modern life's biggest challenges.

## Focus on your treatment, not payment.

If you or one of your family falls ill while you're living overseas, there's only one priority: a swift and successful recovery. Your William Russell health plan covers you for private hospital accommodation, road ambulances, doctors' fees, diagnostic tests, surgery, nursing care, and much more.

We don't think you should have to deal with a pile of paperwork and bills when, really, you want to focus on your treatment and recovery. That's why we always aim to settle your bills directly with the hospital.

If you receive treatment that doesn't require hospital admission, we take care of that too. Just pay at the point of service, email the bills to us, and we will refund the cost of treatment back to you. In certain countries and regions you can apply for our direct billing services, giving you cashless access to care at selected medical facilities.

# Well-being matters. Treatment isn't the only option.

Today's expats are health-conscious and proactive about lifestyle choices, and we have created modern plans to match. You'll find that our plans emphasise prevention as much as cure.

Our Elite plans provide several well-being benefits, from complementary medicines to preventive check-ups, examinations, vaccines, and screenings. You can also choose to boost your well-being benefit with a higher annual limit.

We offer a digital well-being service with access to articles and features on healthy expat living. You can find this and other interesting information at [william-russell.com/blogs](http://william-russell.com/blogs).

## Our plans, designed for you.

Customise our health plans with a range of optional benefits and add-ons.

### Travel insurance

Covers the costs of cancellation, lost baggage, and curtailment while you are travelling abroad.

### Medevac Plus

Medical evacuation is covered as standard on our health plans, but Medevac Plus (available with the Elite plans) extends the range of circumstances under which you'll be evacuated.

### Regional or worldwide cover

Choose from a range of cover areas: e.g. fully international, international excluding USA, Africa & the Indian Subcontinent, and Southeast Asia only.

### USA cover

Given the high cost of medical treatment in the USA, we have made cover there optional so you don't pay for cover you don't need.

### Higher well-being benefit limits

Boost your annual benefit limits on certain benefits such as well-being care.

### Dental care options

We have a range of dental care options for the Silver and Gold plans, so you don't have to pay for cover you don't need. (Basic dental care is covered as standard on the Gold plan).

### Personal accident cover

You can take out optional personal accident cover of up to US\$375,000 alongside your health plan.

### Optical cover

On business plans, you can add cover of up to US\$200 for annual optical tests, lenses, and contact lenses.

## Our health plans, benefits, and optional add-ons.

The plans and prices shown here are illustrative of our rates for individuals, and are available to expats and their families across the globe. For full information, please refer to the relevant plan agreement.

Cover is also available for businesses with three employees or more. To discuss a plan for your business, please call our team on [+44 1276 486477](tel:+441276486477).

Please note that pre-existing medical conditions and related conditions are not covered by our plans, unless you have told us about them and we have agreed to cover them.
